Experimental studies on twinjet afterbody-nozzle system of combat aircraft configurations

Dr. Mathur N B, Viji M

Title

Author/s

Division EAD

NAL Project No. E-1-241

Document No. PD EA 1003

Date of issue April 2010

Contents 12/3 Pages 4 Figures -- Tables -- References

External Participation

Sponsor AR&DB, New Delhi

Approval Head, Experimental Aerodynamics Division Sagar Thapa

Remarks Project progress report submitted to AR&DB, New Delhi.

Keywords Twin jet, Afterbody drag measurement, Strain gauge balance

Abstract This report highlights the progress of the work carried out in the above project including the statement of expenditure for presentation at AR&DB annual symposium-2010
