Title	: Development of Experimental Techniques to Determine the Aerodynamic Performance of Helicopter Rotors in Hover and Forward Flight - Progress Report for 1986-87	Document No. PD-AE-8707 Date of issue: February 87
Author(s)	: S.R.Patil, M.A.Ramaswamy	Contents Pages 1 - 8 Figures 10
Division	: Aerodynamics Division	No. of copies: 30
External participation	:	NAL Project No. AE-1-154
Sponsor	: AR & DB	Sponsor's Project No. 399
Approval	: Head Aerodynamics Division	
Remarks	:	
Keywords	: Helicopter Rotor Models, Rotor Aerodynamic Performance, Development of Experimental Techniques.	
Abstract	: Project on "Development of Experimental Techniques to Determine the Aerodynamic performance of Helicopter Rotors in Hover and Forward Flight" was approved by the AR & DB in January 1985. Details of the project progress made during the year 1986-87 and further programme of work are presented in this report.
