Title : Design & Development of Bridge Deck Plate Using Composite Materials and Sandwich Construction: Concluding Report

Document No.

PD-ST-9031

Date of issue: 25-5-1990

Author(s) : M.R.MADHAVA

Contents

No. of pages: 12

No. of figures: 7

Division : Structural Sciences Division

No. of copies: 30

External participation :

NAL Project No.

ST-9-002/ST-0-128

Sponsor : R & D Estt. (Engrs.), DRDO, Pune

Sponsor's Project No.
Approval : Head of Division

Remarks :

Keywords : Military Bridges; bridge deck plate; sandwich construction integral web construction; FEM analysis; autoclave moulding; pressure pad technology; soft tools; testing & evaluation

Abstract :

This report brings out the gist of the work carried out under the project entitled "Design & Development of Bridge Deck Plate Using Composite Materials & Sandwich Construction" sponsored by R & D Estt. (Engrs.), DRDO, Pune
